

**We offer several different types of care stays including:**

**Rehab Stays** - When you need 24 hour care for a short term, come stay with us and take advantage of our in-house rehabilitation after hip or knee surgery.

**Respite Care** - Taking care of a family member full time can be rewarding but also stressful. Let us take care of your loved one while you take a short rest.

**Hospice Care** - Our philosophy of quality and commitment to individualized treatment extends to all residents, including those needing end-of-life care. We will work with the Hospice team of your choice to support and make sure the individual is always comfortable.

**Assisted Living** - We encourage continued social engagement and fulfilling activities in a resident-centered environment. Team members are available 24 hours a day to help with bathing, dressing, medication reminders or other wellness and personal care needs.

## **Our Mission**

### **We Strive for Excellence!**

We are leaders in providing excellent service through nurturing and professional care in home-like environment. We strive to improve each resident's quality of life by treating each as an individual, with respect and dignity. We will attend to the mind and spirit, as well as the body, by empowering residents and their family to be involved in decisions affecting their care and well being. Let us serve you in a way that promotes relationships with a peaceful, safe, and joyful environment!
